

Quyana Barrow

Software Engineer

Atlanta, GA | qbarrow@gmail.com

github.com/qb-829/ | linkedin.com/in/quyanabarrow

Adaptable software engineer with the ability to pick up new languages and technologies as needed. My professional philosophy is built on curiosity, reliability and relatability. Prior to being a software engineer, I worked as a voter engagement database coordinator for a nonprofit where I managed teams of volunteers, data, and immediate implementation of campaign strategy. I have learned to apply communications and community-building skills to software solutions and developer teams to produce measurable business results.

Software Development Skills

- Debugging, JavaScript, Node.js, React, Express, PostgreSQL, Sequelize, HTML, CSS, Bootstrap, Flexbox,

Education
